KATA PENGANTAR

The International Science of Health Journal, e-ISSN : 2986-6820, p-ISSN : 2986-6855 is a peer-reviewed international journal that publishes practice, ideas, and research in all health sciences and nursing or practice fields from a global perspective. The International Journal of Health Sciences aims to highlight evidence on the Practice of Surgery, Pharmacy, Maternity, Child Health, Mental Health, Dentistry, Medical Education, Midwifery, Science and Nursing, Health Policy and Management, Community Nutrition, Environmental Health, Epidemiology, Reproductive Health, Promotion Health, Occupational Safety & Health, Other Health Professions to a global audience. published 4 (four) times a year in March, June, September and December.

The International Science of Health Journal publishes the only paper that strictly follows the guidelines and templates for manuscript preparation. All submitted manuscripts will go through a double-blind peer review process. The paper is read by members of the editor (according to the area of specialization) and will be screened by the Managing Editor to meet the criteria required for publication. Manuscripts will be sent to two reviewers based on their historical experience in reviewing manuscripts or based on their areas of specialization. The International Science of Health Journal has reviewed forms to keep the same item reviewed by two reviewers. Then the editorial board makes a decision on the comments or suggestions of the reviewers.

Reviewers provide an assessment of originality, clarity of presentation, contribution to the field/science. This journal publishes research articles, review articles/literature reviews, case reports and concept/policy articles, in all scientific fields of Surgery, Pharmacy, Maternity, Child Health, Mental Health, Dentistry, Medical Education, Midwifery, Science and Nursing, Health Policy and Management, Community Nutrition, Environmental Health. The article to be published is an original work and has never been published. Incoming articles will be reviewed by a team of reviewers from internal and external sources.

The Editorial Board will try to continue to improve the quality of the journal so that it can become an important reference in the development of science. The greatest appreciation and gratitude to Mitra Bestari along with members of the Editorial Board and all parties involved in the publication of this journal.

Regards,

Chief Editor
